Dear Partner!

As in previous months, this month we would like to share with you the events and results concerning our company and our services.

At the end of April, we hosted the graduation ceremony of our graduating students, for which our company also provided food and beverages.

I would like to take this opportunity to thank you, on behalf of myself and my colleagues, for the words of praise we received at and after the event.

Unfortunately, the scheduled Indian Day in May had to be cancelled because our guest chef had other commitments. We will see him again in September.

As you have seen, in addition to the winter fruits, we also offer seasonal fruits, for example strawberries, watermelons, cherries, to the great delight of our guests.

On behalf of the Delirest team, I wish you all good luck with your studies and lots of patience for the exam period ahead.

Please continue to contact me with any questions or comments.

Best Regards:
Csaba Terebesi
